II. General principles and provisions

- 5. The Claims Process aims to ensure that Claims are submitted quickly and in good faith and that they are rigorously, fairly and expeditiously assessed, so long as the accuracy of the claim can be confirmed adequately and sufficiently.
- 6. The Claims Process is also intended to prevent fraud and abuse. The Administrator may recommend that a Claim be dismissed in its entirety where they have evidence of fraud or intentional omissions that would materially affect the compensation to be awarded to the Claimant.
- 7. The standard of proof applicable to the analysis of the eligibility of Claims is that of a balance of probabilities. Thus, for the purposes of the Administrator's Recommendation, the Administrator must assess whether each Eligibility Requirement that a Claimant must meet has more likely than not been met.
- 8. At its discretion, the Administrator may consult Class Counsel and the Defendants on matters related to the implementation of the Claims Process.
- 9. The Court remains seized of the matter until the Closing Judgment. The Parties may submit questions raised during the implementation of the Claims Process to the Court for directions.
- 10. Where a Claimant has a Legal Representative, any communications provided for in the Claims Process with a Claimant will be made to their Legal Representative.
- 11. The Protocol is also available in French and English. However, in the event of any discrepancy between the French and English versions, the French version shall prevail, unless otherwise provided.

12. The Claims Process is governed by the laws of Quebec, including the *Civil Code of Quebec*, CQLR c. CCQ-1991 and the *Code of Civil Procedure*, CQLR c. C-25, with which, unless otherwise indicated, the Administrator must comply in the performance of its obligations under the Protocol.

The Claimant whose Claim is based in whole or in part on a sworn declaration shall consent, *for the purposes of calculating interest and additional compensation*, to the payment of any Claim supported in whole or in part on a sworn declaration being deemed to have been made on the 45th day after the start of the Claims Period.

48.2. The Claimant shall consent to the disclosure of personal information in the possession of the Government of Canada or of any federal agency to the Administrator in order to enable the verification of the Claim;

48.5. The Claimant shall confirm both the mailing and email addresses that will be used to communicate with them;

48.6. The Claimant shall certify that the information appearing in their Claim is truthful, and that they have provided all relevant documents in support of their Claim to the best of their knowledge.

VI. Administrator's verification and Claims analysis process

49. The Administrator documents its communications, actions taken, additions and analyses with regard to each Claim in a file specific to each claim.

50. The Administrator acknowledges receipt of any written communication received from a Claimant or Party.

51. In particular, upon receiving a Claim, the Administrator acknowledges receipt of that Claim. In order to do so, they provide confirmation by email to the Claimant or, as the case may be, to the Claimant's Legal Representative, which includes the file number and date on which the Claim was received.

52. **Initial Requirements:** Upon receiving a Claim, the Administrator proceeds with an initial verification to confirm that it meets the following requirements:

- a) confirm the Claimant's identity, on the basis of documents provided by the Claimant;
- b) ensure that the information that appears in the Form is complete; and
- c) ensure that the Claim is made by a Legal Representative, and that this representative has submitted the documents attesting to their authority to act on the Claimant's behalf.

(1) For Claims made by a Legal Representative on behalf of a deceased person, the following

documents must be provided:

- (a) Copy of the Claimant's death certificate or act of death;
- (b) Copy of a will search

 - (ii) If the succession has been liquidated: Copy of a sworn statement in the form prescribed at Schedule I, to which must be joined copy of the sworn statements of the heirs.

53. In the event of an omission or error in a Form that does not have a material impact on the eligibility or compliance of the Claim, the Administrator may, at their discretion, make the necessary corrections if they are able to easily obtain the accurate information. In such cases, no notice of irregularity is sent.

54. Notice of irregularity with respect to Initial Requirements:

54.1. In the event a Claim fails to satisfy the Initial Requirements, the Administrator will send the Claimant a notice informing them of the irregularity. That notice will be sent by email based on the information included by the Claimant in their Form.

54.2. The Claimant will then have **thirty (30) days** from the date the notice is sent by email to remedy the irregularity. If they are unable to meet that time limit, the Claimant may, within the same time limit, inform the Administrator in writing of the need for an extension, in which case the Claimant will receive an extension of **thirty (30) days** to remedy the irregularity.

54.3. In the event they fail to remedy the irregularity within the prescribed time limit, the Administrator will recommend that the Claim be dismissed, without further notice or delay.

55. At the request of a Claimant, the Administrator may, at their discretion and before the verification of the Initial Requirements has been completed, accept the addition of further documentation or information to a Claim.

56. Where a Claim is not based on an Included Address or Included Period, the Administrator will recommend that the Claim be dismissed, without further notice or delay.

57. Once the Initial Requirements have been satisfied, the Administrator will follow the administration processes set out at paragraphs 64, 65 and/or 66 of the Protocol to analyze whether the evidence supporting a Claim has established the following **Eligibility Requirements** according to the balance of probability standard:

- (a) The Claimant was 18 years of age or older on December 21, 2000;
- (b) The Claimant resided at an Included Address during the Included Period applicable to that address;
- (c) The specific months for which the Claimant has demonstrated their residence to the satisfaction of the Administrator;
- (d) If the Claim includes a claim for compensation for custody or responsibility of a child:

ii) The Included Address and Period are set out in parts (a) or (b) of Appendix A; and

- iii) The Claimant had custody of or responsibility for one or more children who resided with them.
58. In order to establish the Eligibility Requirement referred to at paragraph 57(c) of the Protocol, the Administrator will assess with regard to each month claimed whether it is more likely than not that the Claimant resided at the Included Address during the Included Period applicable to that address.
 59. The Administrator shall assess each of the Eligibility Requirements on the basis of the information and documents gathered. In their assessment, the Administrator will take into account each factual element the Administrator deems relevant and reliable. Documentary evidence that is relevant and reliable shall take precedence over evidence by sworn declaration.
 60. In the Administrator's assessment if Eligibility Requirements, the Administrator may also:
 - 60.1. Search any relevant public records or any other public source of information; and
 - 60.2. Compare Claims with other Claims, Recommendations and Final Decisions previously issued.
 61. For the purposes of assessing the elements at paragraphs 57 (b) and (c) of the Protocol, a Claimant who has resided for a continuous period for more than half a month (either 15 or 16 days, depending on the month) and who has resided at that address for a continuous period during the month immediately preceding or the month immediately following that month will be deemed to have resided at that address during the month of residence of 15 or 16 days.
 62. For the purposes of assessing the Eligibility Requirements at paragraphs 57 (b), (c), and (d) of the Protocol, "residing" implies stability in the place of dwelling. It is possible for a person to have more than one residence; however, residing at a given location for a short stay or on an occasional basis will not be considered as having resided at that location.
 63. It is understood that only one of two Claims based on contradictory information can meet the balance of probability standard.
 64. Administration process for Claims regarding an address appearing in Part (b) of Appendix A (Married Quarters Sector at CFB Valcartier in Shannon):
 - (a) Each Tuesday of the Claims Period, the Administrator will advise the Department of National Defence of all Claims that have satisfied the Initial Requirements within the previous seven days. In this notice, the Administrator will provide to the Department of National Defence information allowing it to identify the months and address(es) of residence of each Claimant. In the event that a Claim is made as guardian/person responsible for a child, the name and date of birth of the child will also be provided. The Administrator will at the same time provide access to each Claim via the Claims Portal.
 - (b) From the date of notice set out at paragraph 64(a) of the Protocol, the Department of National Defence will have **ten (10) business days** to recognize that the months and addresses match the information it has, and to provide, if any, relevant additional information, or to indicate the need for additional time to that end, which will be granted by the Administrator without further formality;
 - (c) Where the Department of National Defence recognizes that the months and addresses match the information it has, the portion of the Claim related to those months and addresses will be deemed to meet the balance of probability standard, and the Administrator will recommend granting that portion of the Claim;
 - (d) Where the Department of National Defence indicates that certain months or addresses do not match the information it has, a notice will be issued by the Administrator so as to inform the Claimant;
 - i. The Claimant will then have **thirty (30) days** from the date the notice is sent by email

to provide relevant documents required under paragraphs 45 or 46 of the Protocol, for the months and/or address(s) which are not recognized by the Department of National Defence;

- ii. In the event it is impossible for the Claimant to meet this time limit, they may, within the time limit set out in paragraph 64(d)(i) of the Protocol, inform the Administrator in writing of the need for additional time, in which case the Claimant will be provided with an additional **thirty (30) days** to provide the relevant information;
- iii. If no evidence is submitted by the time extension, the Administrator will recommend granting the Claim with regard to the address(s) and/or months recognized by the Department of National Defence and to dismiss it with regard to the other addresses or months that appear in the Form;
- iv. In the event that evidence is submitted within the time extension granted, the Administrator will recommend granting the Claim with regard to the addresses and months recognized by the Department of National Defence, and that part of the Claim with regard to the other address(s) and/or months will be processed in accordance with the same administration process as other Claims, in accordance with paragraph 65 of the Protocol;

(e) Where the Department of National Defence identifies a period of residence longer than that which appears in the Form, a notice will be sent by email. The Claimant will then have **thirty (30) days** from the date the notice is sent by email to confirm or correct the excess period of residence. If no response has been received by the time limit, the Administrator will recommend granting the Claim with regard to the addresses and months that appear in the Form;

(f) Where a Claim includes a claim for compensation for custody or responsibility of a child, the Administrator will assess the evidence that has been submitted with the Claim;

- i. If the Department of National Defence indicates that the information regarding the child's residence matches the information it has, it will recognize this and the place of residence of the child will be deemed to have been established.

65. Administration process for any other Claim (parts (a) and (c) of Appendix A) (private residences in Shannon):

(g) Every Thursday during the Claims Period, the Administrator will advise the Department of National Defence of all Claims which have satisfied the Initial Requirements in the seven preceding days. In this notice, the Administrator will provide to the Department of National Defence information allowing it to identify the months and address(es) of residence of each Claimant.

(h) The Administrator will provide the Defendants and the Department of National Defence with access to the Claims via the Claims Portal.

(i) The Department of National Defence will have **ten (10) business days** after having received notice of access to a Claim to provide, at its discretion, additional relevant information or documents or to indicate the need for additional time to that end, which will be granted by the Administrator without further formality.

66. Administration process for Claims founded in whole or in part on sworn declarations:

(a) In order to ensure the rigorous, fair and expeditious treatment of Claims and to facilitate the identification of errors or fraud, any Claim supported by sworn declaration will be assessed by the Administrator only at the end of the Claims Period;

- (b) These Claims will be assessed in accordance with the administration process set out at paragraphs 64 and/or 65 of the Protocol. Before issuing its Recommendation, the Administrator will compare these Claims with each other, and with Claims that have already been subject to a Recommendation or Final Decision;
- (c) In order to ensure that any inconveniences are shared equitably among Defendants and Claimants who choose to avail themselves of this means of evidence, and in order to ensure that any Claimant who is entitled to compensation may receive it, a Claimant making a Claim founded in whole or in part on sworn declarations will consent to the payment of any Claim supported in whole or in whole or in part on a statement under oath being deemed, *for the purposes of calculating interest and additional indemnity*, to have been made on the 45th day after the start of the Claims Period.

- 67. At their discretion, the Administrator may consult the Claimant and the Defendants about a Claim.
- 68. Any Claim received after the end of the Claims Period is prescribed. The Administrator may, however, at their discretion, issue Recommendations for Claims received within **fourteen (14) days** following the end of the Claims Period in accordance with Part VII of the Protocol, in which case the Court may, at its discretion, agree to hear those Recommendations, in accordance with Part VIII of the Protocol.

VII. Administrator's Recommendation

- 69. The Administrator must assess whether the evidence for a Claim establishes the Eligibility Requirements on a balance of probabilities.
 - 69.1. If the Administrator is satisfied that the evidence suggests that every Eligibility Requirement is more likely than not, the Administrator will recommend that the Claim be granted.
 - 69.2. If the evidence suggests that one or several of the Eligibility Requirements are not more likely than not, the Administrator will recommend
 - 69.2.1. That the Claim be granted, but only with respect to the Eligibility Requirements that are more likely than not, if any; and
 - 69.2.2. That the Claim be rejected with respect to the Eligibility Requirements that are not more likely than not.
- 70. When a claim concerns more than one Included Address or more than one Included Period, the Administrator must assess each Included Address and Included Period according to the appropriate processes, as set out in paragraphs 64, 65 and/or 66 of the Protocol. However, the Administrator may issue only one Recommendation on completion of the assessment.
- 71. A Recommendation includes the following elements:
 - (a) Identification, including full name, mailing address and email address, of the Claimant and, where applicable, of the Claimant's Legal Representative;
 - (b) The Included Address(es) and the month(s) in respect of which the Administrator recommends the Claim be granted;
 - (c) Identification of any children for whom the Claimant is seeking additional compensation, including name and date of birth, the Included Address and the period(s) of month(s) during which the child or children resided with the Claimant;
 - (d) The amount owed before interest and additional indemnity, calculated in accordance with the grid in Appendix F;
 - (e) Solely for illustrative purposes, a preliminary calculation of the interest and additional

indemnity;

(f) Any discrepancies between what was claimed in the Claim and what is being recommended by the Administrator; and

(g) Exceptionally, identification of any issue for which a solution is not provided by the Protocol.

72. The Administrator will inform the Claimant and the Defendants by email of any Recommendation issued as soon as practicable.

VIII. Final Decisions by the Court

73. Class Counsel and the Defendants shall not challenge a Recommendation without valid and serious reasons.

74. On the first Friday of each month of the Claims Period, the Administrator will submit to the Defendants and Class Counsel a numbered table compiling the preceding month's Recommendations.

75. Within **ten (10) business days** of receipt of the Recommendations table, Class Counsel will, by written application ("**Demand**"), ask the Court to decide on the Claims.

76. The Demand must set out and clearly explain any serious and valid reason Class Counsel may have to challenge a Recommendation.

77. Claimant's right of objection: If a Claimant has not mandated Class Counsel to represent them before the Court:

77.1. The Demand without a copy of the Recommendations table will be notified to the Claimant, by email, with an explanatory notice;

77.2. The Claimant will have **five (5) business days** to notify the Parties, and to file, a reply setting out their reasons for objecting to the Recommendation, as applicable;

77.3. The Claimant may, on request, ask the Administrator to view the information in the Recommendations table relating to their Claim.
